DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1, 2 and 7, drawn to "A single piece component" (claims 1 and 2) and "A cable anchoring jaw" (claim 7), each classified in class 24, subclass 136R.

Group 2, claim(s) 3-6 and 8, drawn to "A method of manufacturing a cable anchoring jaw", classified in class 29, subclass 413.

2. The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group 1 directed to the one-piece article(s) of "A single piece component" (claims 1 and 2) and "A cable anchoring jaw", whereas the invention of Group 2 directed to "A method of manufacturing a cable anchoring jaw" involves manufacturing steps to produce a multi-part anchoring jaw having "N segments" which are not required of the Group 1 invention(s). Furthermore, the particular structural requirements of "a hardening treatment" of the Group 2 invention is not required of the Group 1 invention(s).

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
